

Dear Parent/Carer,

At school we place a huge importance on Reading by developing children’s decoding and comprehension skills, as well as encouraging a love of reading through a wide range of texts.

Your child will now have access to **myON**, which is an online resource giving your child access to over 6,000 e-books. These e- books will be set as weekly Home Learning by your child’s class teacher, with each book ending with an AR quiz that your child must complete.

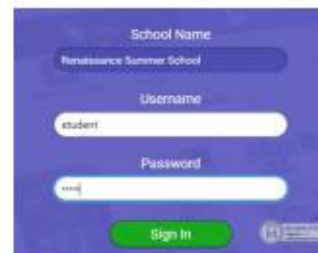

All children will have completed a **STAR test** in school which will ensure that all books on myON will be matched to their reading ability (Zone of Proximal Development Reading Range). This will enable their class teacher to monitor and track their reading progress.

Your child will be shown in class how to access myON, search for texts and complete the quizzes.

**Quick start guide:**

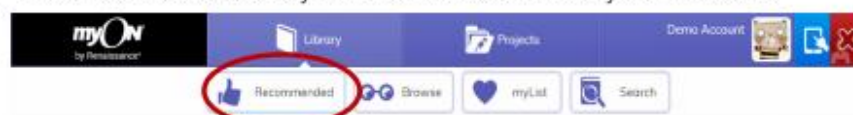

- 1) Go to [www.myon.co.uk](http://www.myon.co.uk) and click login.
- 2) Enter your child’s school name, username and password.  
If you are unsure of your child’s login details, please contact your child’s school or class teacher.

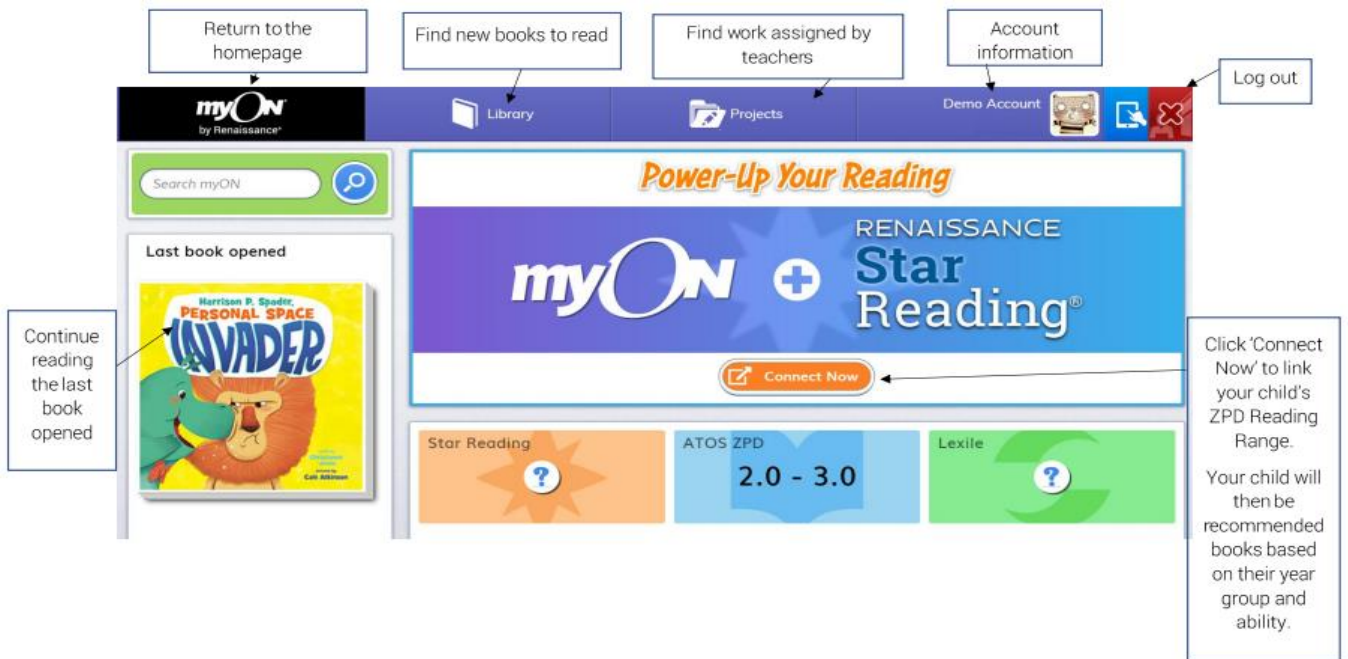

- 3) When your child logs into myON for the very first time, they will be asked to complete an Interest Inventory so that myON can recommend books based on their interests.

- 4) Find a book. Go to Library > Recommended to find your first book.

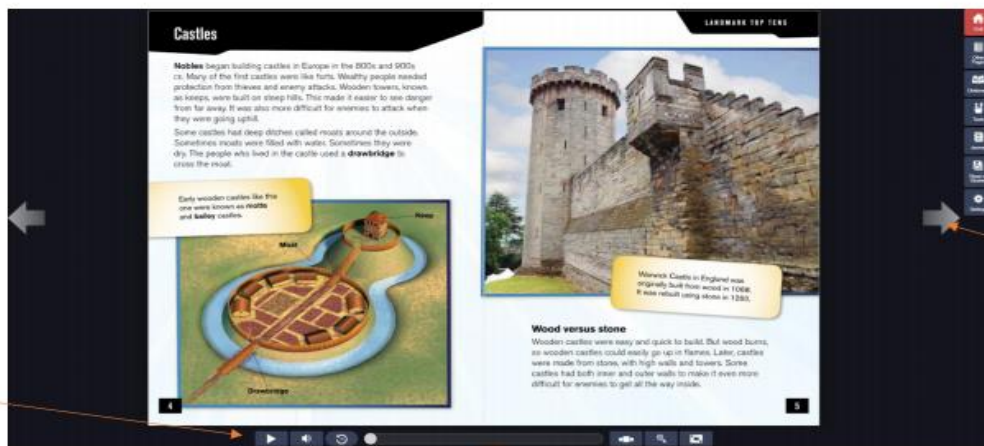

- 5) Select a book and click Read!

### Reading a book in myON

To see more information about a book, move the mouse cursor over the book. To open the book and start reading it, select the **Read** button.

To find out more information about the book, select the **Info** button and a window will open.

Your child will still receive a reading book in their book bag to practice at home as well.

If you have any further questions please speak with their class teacher.

Kind Regards,

Mrs Neophitou

Deputy Principal
