

Year 1 Home Learning Project

Autumn: 2

This half term we will be learning all about Florence Nightingale, also known as 'The Lady with the Lamp'.

For your home learning project we would like you to research some facts about her life, in particular try to find out why she was so significant. How did she change history? These facts can be presented on paper as a poster or bullet points.

We would also like you to make a paper lantern just like the one she is carrying in the picture. There are some ideas below to help you. It would be fantastic if your lamp could look aged and old too.

We look forward to seeing your facts and lamps back in school by
Friday 3rd November.
