#### Safer Internet Day

Safer Internet Day is held every February all around the world. Last year over 170 different countries celebrated the day! Safer Internet Day is a chance to think about any worries we might have about using technology and the internet, but it's also about celebrating all the fantastic things technology can help us with.

The children thought about the fact that although there are lots of incredible things to do online, the internet isn't perfect and sometimes people use it in ways that are not safe, kind or responsible. We discussed ensuring that the children communicate any worries they have with their trusted adults.

All of the classes took part in a Philosophy for Children (P4C) session to discuss a scenario about Online Safety, and then completed a variety of activities in class.
