

Our Autumn 2 project is about ...

The Solar System

This half term we are looking at Earth and Space. While we are looking at the effects of Space on Earth, we would like you to focus on the Solar System.

We would like you to research the 8 planets in the Solar System.

Find out about the moons, rings, colour, size etc.

You can create a power point or make a solar system 3D model with notes about each planet. You could create fact sheets about each planet.

You can do this on your own or work with a partner.

This project is due in on **Monday 21st November**

We can't wait to see your projects. Have fun!

Mrs Greaves and Mrs Ahmed
